

Design Demonstration

The background features a dark gray field with several large, semi-transparent dark gray circles. Scattered throughout are white, three-dimensional geometric shapes that resemble folded paper or origami, some with small black dots on their surfaces.

WORKSHOP MODE

MODSOC PRESENT

The background is a solid black field. Scattered across it are several large, dark gray circles of varying sizes. Interspersed among these circles are numerous white, three-dimensional geometric shapes. These shapes are faceted, resembling crystalline structures or low-poly models of organic forms. Many of the white surfaces are covered with a pattern of small, dark dots, creating a textured effect. The overall composition is abstract and modern, with a strong contrast between the white shapes and the black background.
